

MAKE A GROOVY

Using stuff you probably have lying around the kitchen, you and your family can make your very own lava lamp and learn a bit of science while doing it!

WHAT TO DO

1 FILL the jar three-quarters with water. Add drops of food colori

FILL the jar almost to the top with the oil and let the mixture separate.

until you like the color you see. A

3 POUR a long way! Sprinkle in salt into the jar until glitter for extra sparkle.

SHINE a flashlight behind the

jar to watch your lava lamp really

TRY THIS! EXTREME
