

SCHOOLWIRES PREMIUM VIDEO APP

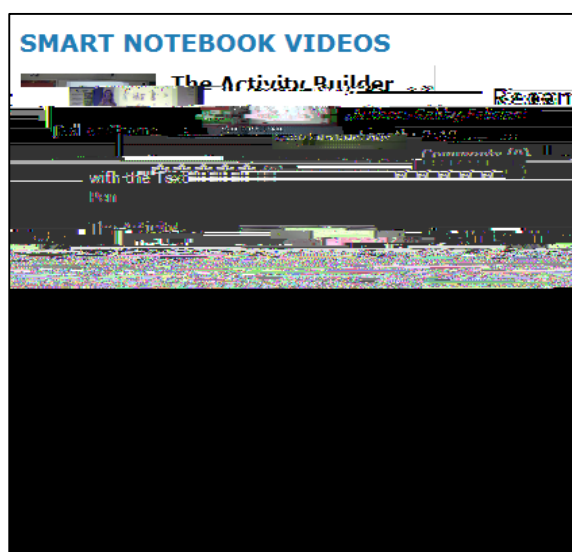

Overview

Schoolwires has a new app that allows for video uploads. This can be used as alternative to Schooltube. **Educational and purposeful videos may be embedded into Schoolwires teacher sites.** Examples of videos that could be hosted are: *teacher created flipped lessons, documentaries, and royalty free instructional videos downloaded from YouTube.* This is also an app that can help host student created video projects. The following formats can be uploaded: avi, mov, mp4, 3gp, flv, m4v, wmv.

The Layout

This is an example of what the **Premium Video App** looks like. With the Premium Video App, you can set a display order and have a thumbnail assigned to each video within the app.

Add a Premium Video App

You can add a Premium Video App by creating a new Flex Page. Edit the page, select the **Manage Apps & Layout Action** and add a **Premium Video App**. You can add the App to an existing page also. For a more detailed set of directions about how to use and edit the Premium Video App, [please click here](#).
